

# THE RABBITTS

From Norwich, UK, The Rabbitts craft music that blurs the lines between folk, alternative, and atmospheric pop. Known for their delicate harmonies, immersive arrangements, and a sound described as “ethereal and understated” (BBC Radio 6), they create songs that feel both intimate and cinematic. Critics have called their work “hypnotic... crafting a meditative spell” (Obscure Sound) and “intricately lush and completely captivating” (Podcart).

In 2025 they embarked on a 15-date UK tour and over half of the shows sold out. They then released an album called ‘Orbital Collection’ on August 22nd which consists of a series of 4 EPs each with it’s own mood and identity. These EPs were released over 12 months starting in August 2024.

*“The vocals and passionate harmonies from Lucy and Odhran work so incredibly wonderfully together. To say they complement each other would be a massive understatement.”*

(Stuart Evans, Outline Magazine)

With music that resonates as much on a quiet folk stage as it does at an alternative or indie festival, The Rabbits are ready to bring their spellbinding live show to audiences across Europe.

The current line up of The Rabbits dates back to 2022 however their history goes back much further. Odhran and Lucy met in 2013 as teenagers and began releasing quirky music as a duo in 2017 whilst living in a van in Canada. They toured across the country from West to East before returning home to the UK and completing the band's line-up with drummer Julien Beghain, and bassist Robin G. Breeze. They have since toured extensively across the UK and built a strong reputation for themselves.
